DATE MAILED:

INTERVIEW SUMMARY

All participants (applicant, applicant's representative, PTO personnel):

(1) Jack Chiang (3)  
(2) Ms. Demetra Stewart (4)

Date of Interview: 6-22-04

Type: ☐ Telephonic ☒ Personal (copy is given to ☐ applicant ☒ applicant's representative).

Exhibit shown or demonstration conducted: ☐ Yes ☒ No If yes, brief description:

Agreement ☐ was reached. ☐ was not reached. ☒ see below

Claim(s) discussed: 25, 27

Identification of prior art discussed: Doe

Description of the general nature of what was agreed to if an agreement was reached, or any other comments: the general subject matter, such as the holder, the telephone receiver & its operation with the handset, including automatic switching between the handset operation to the receiver operation etc., are discussed and compared with Doe. Applicant will further work on the claims, and the examiner will further review this issue.  
(A fuller description, if necessary, and a copy of the amendments, if available, which the examiner agreed would render the claims allowable must be attached. Also, where no copy of the amendments which would render the claims allowable is available, a summary thereof must be attached.)

1. ☐ It is not necessary for applicant to provide a separate record of the substance of the interview.

Unless the paragraph above has been checked to indicate to the contrary, A FORMAL WRITTEN RESPONSE TO THE LAST OFFICE ACTION IS NOT WAIVED AND MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a response to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW.

2. ☐ Since the Examiner's interview summary above (including any attachments) reflects a complete response to each of the objections, rejections and requirements that may be present in the last Office action, and since the claims are now allowable, this completed form is considered to fulfill the response requirements of the last Office action. Applicant is not relieved from providing a separate record of the interview unless box 1 above is also checked.

Examiner Note: You must sign this form unless it is an attachment to another form.

Proposed Amendments for Clarification of Claims in 09/884,963  
Examiner's Interview on 6/22/04 with Jack Chiang

25. (Currently amended) A telephone set comprising:

a holder;

a mobile telephone handset (handy) including a microphone and an  
earpiece;

a telephone receiver including

a shell shaped to be manually graspable, grasp and an adapter for  
the mobile telephone handset (handy), the telephone receiver being  
configured to be storable in the holder and to be removable from the  
holder for manual use while moving around freely,

the telephone receiver also including a recessed area that receives  
and electrically couples the mobile telephone handset (handy) to a  
connector plug, and

a microphone and an earpiece, and a recess for receiving and  
electronically coupling the removable mobile telephone handset (handy)  
that automatically switch-over from the mobile telephone handset  
microphone and earpiece once the mobile telephone is electrically  
coupled to the connector plug; and

a signal transmitter for establishing a remote signal transmission link to  
the telephone receiver independent of an antenna on the mobile telephone  
handset, whether the telephone receiver is stored in the holder or moved around  
freely during a phone call, wherein the telephone receiver contains an interface in

the connector plug for connecting the mobile telephone handset (handy) to the signal transmitter.

27. (*Currently Amended*) A telephone set comprising:

a holder;

a mobile telephone handset (handy) including a microphone and an earpiece; and

a telephone receiver including:

a manually graspable shell,

an adapter for the mobile telephone handset (handy),

a ~~recess~~ recessed shaped area, to receive and electrically couple to a connector plug the mobile telephone handset therein, including a bottom wall and a surround side wall corresponding to respective contours and dimensions of the mobile telephone handset,

a microphone and an earpiece that automatically switch-over from the mobile telephone handset microphone and earpiece once the mobile telephone is electrically coupled to the connector plug.

the telephone receiver being configured to be storable in the holder and to be removable from the holder for use while not being stored in the holder, ~~the telephone receiver also including a microphone and an earpiece, and a recess for receiving and electronically electrically coupling the removable mobile telephone handset (handy) to the telephone receiver;~~ and

a signal transmitter for establishing a remote signal transmission link to the telephone receiver independent of an antenna on the mobile telephone handset, whether the telephone receiver is stored in the holder or moved around freely during a phone call, wherein the telephone receiver contains an interface in the connector plug for connecting the mobile telephone handset (handy) to the signal transmitter.

30. (New) The telephone set as claimed in claim 25, wherein the earpiece and the microphone of the telephone receiver are located on a side of the mobile telephone receiver opposite the side of the recessed area for receiving the mobile telephone handset, wherein the recessed area for the mobile telephone handset is inserted therein, and a keypad on the mobile telephone handset remains accessible.
